

## Primary Care Hubs

You may have recently heard on the news about Primary Care Hubs. Hubs provide additional appointments for patients who present on the day with minor illness symptoms.

Our Practice has access to Hubs that are held at both Mount Hawke Surgery and Truro Health Park and you may be offered an appointment at one of these sites when you call.

Whilst you do not have to accept an appointment at a Hub it would help to utilise our on the day capacity for more complex urgent cases.

Further information can be found at:
